

Habitat Connection

Home is where the start is

This holiday season we have a lot to be thankful for. This fall, we dedicated out 26th home and announced our newest project; [Rock the Block](#). We are beyond thrilled to announce our partnership with Manhattan's very own [Heritage Builders](#) for the construction of Build 27. This will be the first new Habitat home construction project in Manhattan for over ten years. The Habitat Team has been planning for this build for the better part of 2016, and cannot wait to [Rock the Block](#)!

[Our partnership with Heritage will provide three things:](#) Critical home repair, weatherization, and home preservation. One home. One Neighborhood. \$120,000. Those are the goals we have our eyes set on as we prepare for our next home build this coming March. This house is a partnership between Manhattan Area Habitat for Humanity, Heritage Builders and the local community to help more families have access to decent and affordable housing. In 2017, for the first time in almost ten years, Manhattan Area Habitat for Humanity returns to Manhattan, Kansas to build House #27.

We won't stop at a single home. Our [House #27](#) will be built on the historic Yuma Street. Manhattan Area Habitat for Humanity, in partnership with Heritage Builders, intends to revitalize this neighborhood through our Rock The Block Manhattan 2017 initiative. This neighborhood "spruce up" will assist homeowners with needed home repairs, maintenance, weatherization, safety, accessibility and beautification.

For more information, visit mahfh.org contact Manhattan Area Habitat for Humanity at (785) 320-6847 or email office@mahfh.org.
