

Habitat Connections

Every one helps build a better future

We have groundbreaking news! Last month, Manhattan Area Habitat for Humanity broke ground and has officially started the construction on Home Build #27 for the Wilhoite family. Home Build #27 is our first house in Manhattan in almost a decade and it is MAHFH's first story and a half house. Thanks to everyone who came out and celebrated with us. Our Habitat is fortunate to have the sponsors, families, and volunteers who donate to support our mission and the Manhattan community.

Habitat Happenings

Every voice can advocate and help more families build strength, stability, and independence.

[Rock the Block](#)

Manhattan Area Habitat for Humanity is Rocking the Yuma Block. We are providing exterior home repairs to qualifying owner-occupied homes. [Rock the Block](#) is a neighborhood "spruce-up" assisting homeowners with needed exterior repairs, maintenance, weatherization, safety, accessibility, and beautification. Our goal is to reintroduce volunteers, participants, and the community to the rich heritage of this area via a walking tour of significant sites.

For more information, visit [MAHFH](#), or email office@mahfh.org
 Email volunteer@mahfh.org to volunteer within the community!

Cans for Habitat

Thank you to everyone that donated aluminum cans to Habitat for Humanity at Howie's Trash and Recycling. We know the word is getting out to donate because we have seen our proceeds double this last quarter. Our aluminum can donation bin is right next to the can conveyor belt, and clearly marked "Habitat for Humanity". Help us turn Cans into Homes in Riley and Pottawatomie counties!

Recognition Corner

Big shout out to Kennedy Crabtree, a member of our MAHFH family! Kennedy recently won the Geography Bee at her grade school. Way to go Kennedy, you are a shining star building your future bright!

Community Events

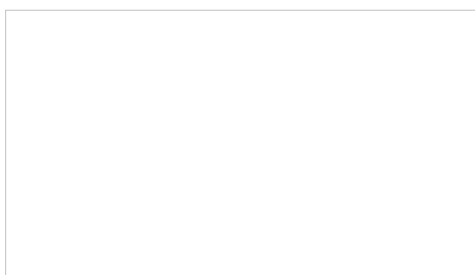

Every smile comes from a place of safety and security that only a home can bring.

Did you know?

Connecting with Habitat and supporting ReStore last month resulted in the Manhattan community saving 8760 lbs of unwanted appliances and scraps from being dumped into the landfill. One month of recycling, or 4.3 tons of rummage, were reused to provide an income for Habitat to reuse in our community. If there are materials, furniture, or appliances that are still in good condition please remember to call and schedule with our ReStore donations to pick your items up for free.

St. Patrick's Day Parade

Look for the Manhattan Area Habitat for Humanity Habitat and ReStore Staff in the 39th annual St.Patrick's Day Parade on March 18th from 1:00 PM - 2:30 PM.
